 Thursday Sunrise—7:31. Thursday Sunset—7:43.

SIXTY-SEVENTH YEAR

## Vital World Issues

### 7-Point Program Offered To United Nations by Marshall

By Clyde Blackburn  
 NEW YORK, Sept. 17.—(CP)—State Secretary Marshall today moved to throw into the lap of the United Nations General Assembly three of the most explosive of current international issues, consideration of which has been blocked in the Security Council by the unyielding opposition of Russia.

IN A BLUNT, realistic address, Marshall announced that he would move to:

1. Have the assembly adopt a resolution calling upon Albania, Bulgaria and Yugoslavia to cease aiding or supporting guerrillas in Greece and otherwise recommend on the Balkan crisis.
2. Take up in the assembly the issue of Korean independence which has been blocked for two years by Russian refusal to work with the United States toward carrying out the Moscow agreement on that issue.

Have the assembly refer to a special committee for report at the next assembly on ways to "liberalize" and otherwise improve the circumstances under which the veto power enjoyed by the major powers on the security council may be applied.

MARSHALL ALSO announced he would move to have a general

### Girl Is Arrested On Perjury Count

A 15-year-old girl was taken into custody Tuesday afternoon on a juvenile delinquency charge arising out of perjury alleged in a "committee" examination by Crown Counsel D. B. MacKenzie.

In the trial of George Geary, on a charge of kidnapping, the girl was found not guilty on the charge by Mr. Justice Hugh John Macdonald.

# CITY'S PULSE

The close news of thousands of individuals in a city teeming with massifs, the concentration of each on his own personal problem, oblivious to the crowd around him, made the city of Edmonton a contemplative merry-go-round. Read his column on page 15 today.

## 10,000 Persons Flee North As Hurricane Hits Florida

Two members of the United States House of Representatives slipped overboard on the way north to inspect U.S. installations along the Alaska Highway. Shown above, left to right, are Col. C. M. DeWester, U.S.A.R., member of the joint Canadian-American defence board, in charge of the flight. Congressman Bart J. Jonkman, R., Michigan, and Congressman Robert Chertoff, R., Illinois and Boyd Crawford, a committee clerk. See story page 8.

## Miami Is Isolated By Gigantic Blow

MIAMI, Fla., Sept. 17.—A swirling hurricane of gigantic proportions crashed into Florida's east-coast playground today, smashing a dozen commercial plants, and temporarily isolating Miami.

The centre of the great storm apparently struck Fort Lauderdale shortly before 1 p.m. EDT and the Miami Herald reported a 55-minute lull ended abruptly with resumption of 100-mile-an-hour winds.

The aircraft were reduced to wreckage as the hurricane ripped Miami's airport.

TWO RAILWAY trains, which were to have headed 5,000 refugees from the flood-stricken Lake Okechobee region were caught by the storm at Palm Beach. Buses were reported working frantically to get the stranded rolling and had three locomotives hooked to one train.

Swamp Wind Beach was deserted. Street travel was dangerous and almost impossible.

The storm was expected to smash across the Florida peninsula with the intensity of the Fort Myers area about midnight.

THE WIND velocity was less than the record 120 M.P.H. recorded in September 1935. There was no U.S. dollars.

(Continued on Page 2)

## Big Deficit Forecast

OTTAWA, Sept. 17.—(CP)—Canada's adverse trade balance with the United States, which topped \$44,000,000 higher than the year-ago level for the first seven months of this year—an all-time high—and thus emphasized growing official concern over the country's diminishing reserves of U.S. dollars.

AT \$77,300,000, the trading deficit already was \$10,000,000 over the year-ago level for the first seven months of this year.

And lent confirmation to predictions that the disparity will reach \$100,000,000 by the year-end. The adverse balance is the amount Canada has to pay out in U.S. dollars.

(Continued on Page 2)

## Price of Bread Goes Up Thursday

Three major bakeries will advance prices of bread by three cents a loaf on Thursday, it was announced today.

The announcement was made by J. P. Barber, manager of McLaughlin's, C. A. Blair of C. J. Bakeries and J. Johnston of the Edmonton City Bakery.

The bakeries had no announcement to make. The price of rye bread, and on price increase has been decided on for loaves.

Effective today, Vancouver bread prices were increased three cents a loaf and Victoria by two cents.

## Suspect Maniac at Large

TORONTO, Sept. 17.—(CP)—A maniac suspect in the slaying of a young woman, who was found strangled in the baggage compartment of a bus last Friday.

## 800,000 Marching Across Border in Punjab Great Migration in Progress

By Walter J. Mason  
 NEW DELHI, Sept. 17.—(AP)—Two of the greatest migrations in modern times, led by marching columns of 800,000 men in progress both ways across the riot-torn border area in Punjab between Moslem Pakistan and Hindu India.

The government of the United States has come to the conclusion that the only practicable method for improving the situation in all of India is the holding of the voting procedure in the council.

The general assembly has a definite and continuing responsibility in the broad field of political security and the preservation of friendly relations among nations.

In our fast-moving world of annual review of developments in this field is not sufficient. The government will never endure if there is insistence on privilege to the point of frustration of the collective will.

THE MINISTRY of relief and rehabilitation said today that more than 1,000,000 refugees from communal warfare have crossed the border during the last eight days. The exchange of refugees is expected to reach 4,000,000 persons.

The migration of Hindus and Sikhs from West Punjab and of Moslems from East Punjab is proceeding by plane, "air, automobile and motorcycle men, all under military protection. The official report said nearly 600,000 had been moved by foot, nearly 100,000 by motor.

Former Mayor F. M. LaGuardia, quipped at his New York home last night and his physician, Dr. George Baehr, reported him to be in critical condition. "The former mayor has been failing gradually for the past week," Dr. Baehr said, "and tonight he suddenly collapsed and sank into a deep sleep."

Baehr said La Guardia, who was mayor of New York for 12 years, was too critically ill to be removed to hospital.

These are the opening sentences of the ninth fortnightly crop report issued Wednesday by the department of agriculture.

LITTLE THRESHING has been done in central and northern districts, the report states, but with clear, warm weather it is predicted that cutting and threshing will proceed rapidly.

Provincial average wheat yields are estimated at 15.4 bushels to the acre with grades in the southern section ranging about No. 2 and 3 northern grades.

The entire district was evaluated to the accompaniment of warning signs.

Kyodo news agency reported a new shipment 774 dead, 150 injured, and 2,817 missing throughout the 20 prefectures reporting storm damage. The official death toll was some 300 of the dead were two American soldiers.

## Marshall's Punch Points

NEW YORK, Sept. 17.—(AP)—Punch points from State Secretary Marshall's speech today to the United Nations General Assembly: The situation we face today may be summarized by the statement that more than two years after the end of the war, the fruits of peace and victory are still beyond our grasp.

When looking anxiously toward the future, wondering whether a new and more terrible conflict will engulf them.

A supreme effort is required from all of us to succeed in breaking through the vicious circles of deepening political and economic crisis.

If the United Nations should fail to protect the integrity of one small state (Greece), the security of all small states would be placed in jeopardy.

I say frankly to the General Assembly that it is the conviction of my government that a workable system for the regulation of armaments cannot be set into operation until confidence is restored.

With sympathy strikers in two Quebec livestock slaughter houses return to their jobs by a national strike for higher wages by the United Packinghouse Workers of America (CIO) continues with no sign of settlement.

THE UNION, on strike against Swift Canadian, Canada Packers and Burns and Company to enforce demands for wage increase averaging 17 cents an hour, insists on a federal conciliation on an all-Canada basis. Swift's have offered to accept the terms of the conciliation, but the union says it will accept a five-cent increase.

And predictions that most cities will be hit by a five-cent increase.

(Continued on Page 5)

## No Sign of Settlement Nation-Wide Packers Strike Still Deadlocked

## CBC to Consider French Radio Here

CALGARY, Sept. 17.—(CP)—The question of further applications for radio station licences should be heard at open sittings was on the agenda as the board of governors of the Canadian Broadcasting Corporation met here today.

The meeting, one of the board's regular gatherings and the first it has held in Alberta, was in camera today as discussions centred on administrative problems.

CBC officials declined to divulge which applications might be on the agenda but it is known one of the first to be heard will be that for a French-language station at Edmonton.

The Alberta government's bid for a commercial licence for CKLA, the station it operates at Edmonton, was not scheduled to be heard at the Calgary sittings.

Six of the eight members of the board attended the meeting including David Dunton, the chairman, and Dr. Augustin Frigon, general manager.

## Five Freight Cars Are Derailed in Accident in Morinville District

Five freight cars of a Northern Alberta Railway were derailed in an accident in the Morinville district, about 3.20 p.m. yesterday.

No injuries resulted from the derailment, and the cause of the accident has not yet been determined.

The derailed cars were carrying a load of grain and other freight. The accident occurred near the town of Morinville, about 100 miles north of Edmonton.

The cause of the accident has not yet been determined. The derailed cars were carrying a load of grain and other freight.

## Alberta Harvest Seriously Delayed

Cold, wet weather has seriously delayed harvesting throughout the province. Operations are at a standstill. Fields are sodden and grain sprouting in stocks and swath is adding to the farmer's troubles. Rain has interfered with summering and many fields are showing the result of enforced neglect.

These are the opening sentences of the ninth fortnightly crop report issued Wednesday by the department of agriculture.

LITTLE THRESHING has been done in central and northern districts, the report states, but with clear, warm weather it is predicted that cutting and threshing will proceed rapidly.

Provincial average wheat yields are estimated at 15.4 bushels to the acre with grades in the southern section ranging about No. 2 and 3 northern grades.

## Court to Test Mine Contract

CALGARY, Sept. 17.—(CP)—Notice of termination of the contract between the United Mine Workers of America, district 18 and the Western Canadian Bituminous Coal Operators' Association, given by the union late in August, will be tested before the Alberta supreme court, it was learned yesterday.

THE COAL OPERATORS are asking the court to declare that the contract is still in force.

## 15,000 Doukhobors May Go to Russia

VANCOUVER, Sept. 17.—(CP)—Nova Doukhobors, a Canadian-born Doukhobor and ex-serviceman, said in an interview Tuesday that he wanted to move to his ancestral Russia "to fulfill the Doukhobor destiny" and predicted 15,000 of the sect's 17,000 members in Canada would do the same.

He said he had no fears of travel or oppression in Soviet Russia.

"I don't even think we'll stay long in Russia," said the young man, who is a member of the Canadian Army in defiance of the traditional Doukhobor ban on all forms of military service.

According to ancient prophecy, when the thousands of Doukhobors return to Russia from North America they will remain there for ever, and will be happy, probably in a district in Turkey which has never known bloodshed, he said. "There, we will stay forever."

Effective today, Vancouver bread prices were increased three cents a loaf and Victoria by two cents.

**Land Speed Mark Shattered by Cobb**  
BY OTIS A. PUSEY  
BONNEVILLE SALT FLATS, Utah, Sept. 17.—(AP)—John Cobb of London yesterday broke the world land speed record to 364.138 miles per hour.  
The 40-year-old British pilot not only smashed his own record of 308.9 M.P.H. for the mile and 308.7 for the half-mile but he also achieved his ambition to break over 400 miles per hour.  
Cobb burst a break wind and several rough spots on the 14-mile salt straightaway on this dry lake bed to chalk up marks un-  
dreamed of only a few years ago. His old marks were established here in 1930.  
On the south run Cobb roared through the mile at 363.40 M.P.H.  
On the return run he was timed at 403.13 miles an hour for the mile, fastest time ever recorded by man on land.

**Trade Balance**  
(Continued from Page 1)  
American funds to cover the difference between what she buys from the United States and what the United States buys from her.  
The total amount of American dollars which the Exchange Com-  
mission Board is expected to have to supply for the whole of this year is \$1,200,000,000, made up of the \$800,000,000 trading deficit, \$200,000,000 for earnings of U.S. invest-  
ments in Canada, and \$200,000,000 to cover adverse balances on ship-  
ping, freight and other items.  
To meet this, Canada probably will receive \$350,000,000 in U.S. dollars from the United Kingdom in payment of Commercially adverse trading balances, \$350,000,000 from American foreign trade in Canada, \$100,000,000 from gold shipments to the United States and \$200,000,000 from trade with European and Latin-American countries.

**THIS WILL LEAVE** an overall \$350,000,000 deficit which will have to be paid out of the Dominion's U.S. dollar reserve, which stood at \$1,244,000,000 at Jan. 1.  
**ONE MINUTE NEWS ABOUT**  
**JOHNS-MANVILLE**  
**Cost Of Living Can Be Lowered**  
In spite of rising prices here's one way to cut living costs that hasn't been expected to get one "dollar" satisfaction to both Jews and Arabs.  
3. **KOREA:** After two years of futile negotiations with Russia on Korean independence, the United States has given up hope of finding a solution that way. It will submit suggestions for restoring Korean independence but looks to the "impartial judgment" of the assembly for the solution.  
4. **ATOMIC ENERGY:** Two members of the atomic energy commis-  
sion—Marshall did not specifically name Russia and Poland—have blocked agreement in the commis-  
sion on control machinery. Unless the minority agree soon, Mar-  
shall said the commission may be confronted with complete failure.  
5. **ARMS REGULATION:** A "workable system" of arms control is impossible until "conditions of

the first general assembly but which no progress has been made, Marshall said. The United States set a workable system for the regulation of armaments could not be put into operation until con-  
ditions of international confidence prevailed.  
6. **A SPEECH** bristling with threats of Russia, he challenged the United Nations to make a "positive effort" to break the world's "deepening political and economic crisis," and save Greece from the "attacks" of its Balkan Communist neighbors.  
"This assembly cannot stand by as a mere spectator while a member of the United Nations is en-  
slaved by the Soviet Union," he said. "If the United Nations should fail to protect the integrity of the small states, the security of all small states would be placed in jeopardy."

**Marshall Speech**  
(Continued from Page 1)  
The United States now favors drastic "liberalization" of the veto by eliminating it entirely from all security decisions on Pacific settle-  
ments of international disputes. He added, the veto could then be used only on issues involving formal votes against aggressors.  
He also called for an assembly solution for Palestine.  
"THE SITUATION we face today," the state secretary said, "may be summarized by the state-  
ment that more than two years after the end of the war, the fruits of peace and prosperity are still beyond our grasp."  
"Men look anxiously toward the United Nations," he said, "and more terrible conflict will engulf them. A supreme effort is required from all if we are to succeed in breaking through the vicious circle of deepening political and economic crisis."  
With a plea to the great powers to use their power and privilege with restraint, Marshall warned grimly: "The United Nations will never endure if there is insistence on privilege to the point of frustra-  
tion of the collective will."  
Here in a nutshell is the seven-point program Marshall laid down.  
1. **GREECE:** The United States will submit to the assembly a resolution urging immediate action by Greece, Albania and Bulgaria for Greece's border troubles, calling on them to stop supporting Greek communist guerrillas and creating a special commission to watch over the explosive Balkan situation.  
2. **PALESTINE:** The United States gives "serious weight" to the proposals of a United Nations committee for partitioning the Holy Land between Jews and Arabs. The United States will do its utmost to help the assembly find a solution for Palestine but did not expect to get one "dollar" satisfaction to both Jews and Arabs.  
3. **KOREA:** After two years of futile negotiations with Russia on Korean independence, the United States has given up hope of finding a solution that way. It will submit suggestions for restoring Korean independence but looks to the "impartial judgment" of the assembly for the solution.  
4. **ATOMIC ENERGY:** Two members of the atomic energy commis-  
sion—Marshall did not specifically name Russia and Poland—have blocked agreement in the commis-  
sion on control machinery. Unless the minority agree soon, Mar-  
shall said the commission may be confronted with complete failure.  
5. **ARMS REGULATION:** A "workable system" of arms control is impossible until "conditions of

The United States now favors drastic "liberalization" of the veto by eliminating it entirely from all security decisions on Pacific settle-  
ments of international disputes. He added, the veto could then be used only on issues involving formal votes against aggressors.  
He also called for an assembly solution for Palestine.  
"THE SITUATION we face today," the state secretary said, "may be summarized by the state-  
ment that more than two years after the end of the war, the fruits of peace and prosperity are still beyond our grasp."  
"Men look anxiously toward the United Nations," he said, "and more terrible conflict will engulf them. A supreme effort is required from all if we are to succeed in breaking through the vicious circle of deepening political and economic crisis."  
With a plea to the great powers to use their power and privilege with restraint, Marshall warned grimly: "The United Nations will never endure if there is insistence on privilege to the point of frustra-  
tion of the collective will."  
Here in a nutshell is the seven-point program Marshall laid down.  
1. **GREECE:** The United States will submit to the assembly a resolution urging immediate action by Greece, Albania and Bulgaria for Greece's border troubles, calling on them to stop supporting Greek communist guerrillas and creating a special commission to watch over the explosive Balkan situation.  
2. **PALESTINE:** The United States gives "serious weight" to the proposals of a United Nations committee for partitioning the Holy Land between Jews and Arabs. The United States will do its utmost to help the assembly find a solution for Palestine but did not expect to get one "dollar" satisfaction to both Jews and Arabs.  
3. **KOREA:** After two years of futile negotiations with Russia on Korean independence, the United States has given up hope of finding a solution that way. It will submit suggestions for restoring Korean independence but looks to the "impartial judgment" of the assembly for the solution.  
4. **ATOMIC ENERGY:** Two members of the atomic energy commis-  
sion—Marshall did not specifically name Russia and Poland—have blocked agreement in the commis-  
sion on control machinery. Unless the minority agree soon, Mar-  
shall said the commission may be confronted with complete failure.  
5. **ARMS REGULATION:** A "workable system" of arms control is impossible until "conditions of

**Marshall Speech**  
(Continued from Page 1)  
the first general assembly but which no progress has been made, Marshall said. The United States set a workable system for the regulation of armaments could not be put into operation until con-  
ditions of international confidence prevailed.  
6. **A SPEECH** bristling with threats of Russia, he challenged the United Nations to make a "positive effort" to break the world's "deepening political and economic crisis," and save Greece from the "attacks" of its Balkan Communist neighbors.  
"This assembly cannot stand by as a mere spectator while a member of the United Nations is en-  
slaved by the Soviet Union," he said. "If the United Nations should fail to protect the integrity of the small states, the security of all small states would be placed in jeopardy."

**Instant Maxwell House Coffee**  
Just a teaspoon to a cup...  
Instantly you have a fragrant cup of Instant Maxwell House with all the superb Maxwell House aroma and flavor...  
for makes about as much as a pound of regular coffee.

**Claims Treasury Branches Illegal**  
CALGARY, Sept. 17.—(CP)—A charge that the Alberta government is carrying on an illegal banking business in its treasury branch system, was made by C. E. Smith, Calgary lawyer in a speech court Tuesday in an unsuccessful defense of a former assistant ac-  
countant in the Calgary Treasury Branch, charged with theft.  
The accused, Alfred J. Minchin, 32, of 22nd Street N.W., was charged with the theft of \$300.  
Minchin pleaded not guilty. He argued that the Treasury Branches were not banks of the government, but actually banks of a depositor.  
Minchin said that Crown witnesses stated they were operating under Treasury Branches according to statements made, was not a banking system.  
Yd. Mr. Smith stated, the firm checks cheques, keeps deposit ac-  
counts, has tellers and messengers and the business character of the bank. He termed the Treasury Branches as banks against agree-  
ment with the provincial government with carrying on an illegal banking busi-  
ness.

**Hurricane**  
(Continued from Page 1)  
basis for comparison with the storm of 1928, winds were estimated at 130 to 150 miles per hour, but were not recorded. The coast guard reported a 10-foot picket boat and a crew of three had disappeared on a rescue mission and was presumed lost, but a later was sighted in high seas and was believed to have escaped. A dozen persons stranded by high water southwest of Miami.  
Private packs with three aboard radioed an SOS, but the coast guard said mountainous waves and adverse winds prevented a rescue attempt.  
**TREES, LIGHT POLES** communi-  
cation lines and temporary structures buckled under the massive onslaught, and broke up to 100 miles an hour slammed Miami.  
All communications between Miami and outside areas went out abruptly shortly after 10 a.m., and the New Orleans weather bureau said all tele wires, and power lines and other safe structures along the coast.  
**AN ESTIMATED** 10,000 others had fled north toward from Clevel-  
and other communities surrounding Lake Okechobee.  
A 75-foot-high tower at radio station WJNO here, snapped with the storm. The tower had been guaranteed to withstand a wind velocity of 125 miles an hour.  
The station WJNO were flooded, and the staff remained, taking refuge in the Good Samaritan hospi-  
tal, two blocks away after a wild run before the storm.  
The state's \$100,000 citrus crop was expected to suffer heavily.  
International confidence prevail in the world, but the United States wants the UN arms commission to "proceed vigorously" with its task of planning armament regulations under the Security Council.  
6. **VETO:** The "abuse" of the veto right—Marshall did not specifically name Russia—has pre-  
vented the Security Council from fulfilling its true function.  
The United States intends to propose that the assembly create a special committee to study ways of lib-  
erating the veto and report next year.  
7. **SECURITY:** The assembly now has so much work to do, that it needs an agency to remain in session all the time keep an eye on the world's trouble-  
maker, and report matters they arise and recommend a special session of the full assembly when necessary.

**THE CONTRACT** between the two parties, signed Oct. 1, 1946 states that it shall continue until March 23, 1948, and further, "no notice of termination shall be given or accepted and approved that this agreement is intended to be a binding instrument to be fully observed and carried out in all its details in its strike or lockout or local ap-  
provision for the termination thereof at any time within 10 months or two months' notice by either party after the expiration of the term of the contract."  
The act, amended on March 21, 1947, states "no collective agree-  
ment shall be made for a term of less than one year, but when the term of agreement is more than one year, the agreement shall con-  
tain a provision for the termination thereof at any time within 10 months or two months' notice by either party after the expiration of the term of the contract."  
The act, amended on March 21, 1947, states "no collective agree-  
ment shall be made for a term of less than one year, but when the term of agreement is more than one year, the agreement shall con-  
tain a provision for the termination thereof at any time within 10 months or two months' notice by either party after the expiration of the term of the contract."

### NAPKINS—RUNNERS

## Won't Pay Price Boost

# Britain Refuses Meet Danish Bacon Price

LONDON, Sept. 17.—(CP)—Britain's increased dependence on Canada for the maintenance of her weekly two-ounce bacon ration—just half the wartime issue—has been increased by a food ministry decision not to pay Denmark higher prices for smaller quantities.

**DURING THE WAR**, Canada supplied the bulk of the British bacon ration of four ounces a week, but Denmark returned strongly to the export market last year, driving a three-year contract with the food ministry. During the first seven months of this year the Danes shipped 14,000,000 long hundredweight compared with Canada's short hundredweight.

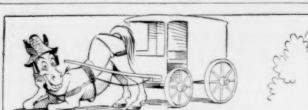

The Danish contract provided for a price review this month but the conference was broken down. At a great conference Tuesday Food Minister Strachey said the Danes had asked prices far in excess of the prices the United Kingdom is paying her major suppliers, especially in the British Commonwealth.

**THE DANES ASKED** that their price be increased from 105 shillings (\$2.25) to 125 shillings a long hundredweight of 112 pounds. This compared with the Canadian price of 145 shillings for a hundredweight of 136 pounds.

Britain offered the Danes 172 shillings a long hundredweight but would go no higher. Strachey said Britain's economic position did not allow her to "pay fancy prices for food from any external source."

Canadian supplies to the United Kingdom now are rising but it is questioned if they will be sufficient to more than maintain the present ration, which the authorities had hoped to raise to three ounces weekly.

Don't forget that sewing kit in your ditty bag; it should contain safety pins, needles, thread, sewing cotton, buttons, wax, etc.

**You can't buy better coffee than FORT GARRY!**

Full, rich body and fine flavour make Fort Garry Coffee a favorite wherever it goes. It's flavour-sealed in Pilschlin.

## YOUR OWN TEETH WILL SHOW YOU...

## PEPSODENT'S MIRACLE OF DENTAL WHITENESS

Yes, right in your own home you can watch Pepsodent's miracle of dental whiteness happen to your teeth! You see, you will be doing just as your dentist does—relying on powder to remove the dull, dingy film that may become harmful, ugly tartar. And Pepsodent Tooth Powder is especially made to remove that troublesome film... gently but thoroughly... at home. What's more, you'll like Pepsodent's cleaner, brighter taste! So change today to Pepsodent for teeth of Dental Whiteness.

**The difference is REAL—And Pepsodent is the ONLY TOOTH POWDER THAT CONTAINS IRIUM**

## Northwestern Utilities Old-Timers Meet at Re-Union Held in City

Stories about old times with the Gas Company were swapped at dinner meeting in the Madison hotel Tuesday evening when members of Northwestern Utilities Old-Timers Association held a get-together. All members of the association are retired members of the staff of Northwestern Utilities Ltd. Feature of the dinner was the presence of Charles Spencer of Wilmer, Cal., who came nearly 2,000 miles for the reunion. In the above group are: front row, seated, left to right, E. W. Bell, Julian Garrett, vice-president Northwestern Utilities Ltd., C. M. Spencer, G. W. Green and Arthur Holmes, president of the Association. Second row, left to right, R. C. McPherson, general manager of the company; J. R. N. Cooke, E. F. McFarlane, Dave Arth and J. Farquhar. Back row, left to right, J. W. Hill, Edward Nelson, W. N. Watkins and A. B. Bailey.

joint approach by both the British and ourselves to implement the recommendations of the West Indian Royal Commission report and the Tassie report on our West Indian possessions. These efforts led to the establishment of the Anglo-American Caribbean Commission. I felt that this area which was in our front yard and related to our coastal defence might be not only to improve conditions for the inhabitants of the islands, but also to develop new methods to raise standards of living in other colonial and semi-governing territories.

The final years of the war brought some benefit but also much hardship to these island people for which we both held a primary responsibility. Their economy, stripped of trans-

port, left some in precarious circumstances. The demand for labour in the Base-Lease area was temporary and too few communities supported a self-sustaining agricultural economy. Much good was accomplished by our joint action, but there is still far more to be done by the great democracies to work out a good life for those who earn their living on the fertile lands that are washed by the lovely waters of the Caribbean. I believe this area could be made an example to all the world of what Colonial government might be. At least it is a testing ground in which the Colonial Powers can prove their good faith to underprivileged people in the world of today.

I believe in the main effect of the war was to strengthen the

Official of the Prince Albert local of the United Packinghouse Workers of America (CIO), announced last night that employees of Burns and Company had voted 100% against returning to work and accepting conciliation as a means of settling their wage dispute with the company.

The local has about 250 members.

## Winant

(Continued from Page 4)

large administrative units played a valuable part in ensuring full colonial contribution to the war effort. The East and West African territories alone put into the field 350,000 men. They fought in Africa, in Madagascar and later in Burma. On both sides of the Atlantic, the production of many vital war materials was substantially increased. They included copper, manganese, bauxite, rubber, sisal, quinine and oil seeds. Their value to the Allied war effort as the war progressed was of the highest importance. The oil products of West Africa provided over 40 per cent of Great Britain's ration; the sisal products of East Africa provided more than half the United Nations supply of hard fibre.

**THIS MACHINERY** which reached a high degree of efficiency would, however, have had far less effective results if it had not rested on the firm foundation of the loyalty and good will of the colonial people themselves toward the Mother country and the general Commonwealth and colonial concept which includes in principle the evolutionary realization of self-government and eventual Dominion status. From Jamaica to West Africa to Fiji, colonials flocked to the standard in the thousands. And those whose circumstances did not allow them to fight stayed at home and worked.

It should also be noted that the United Kingdom Government pressed forward, even with all the difficulties of war, its policy of colonial development. In 1940, while the Germans were swarming around the Channel ports, Parliament passed the Colonial Development and Welfare Act providing 50 million pounds for a five-year program of social and economic development in the Colonies.

In the years I was in the International Labor Office I worked hard for the objectives which this measure set out to accomplish. Shortage of manpower hampered the full operation of this program but much useful work was done which included the preparation of many plans for the future.

**IN THE CARIBBEAN** we shared these plans. Both before and after Base-Lease Agreement, I urged a

## Help Kidneys If Back Aches

In the United States, Germany, Italy, Japan, Russia, and elsewhere, the kidneys are the most important organs of the body. They are the filters of the blood, and if they are not working properly, the blood becomes poisonous. Back aches, kidney stones, and other ailments are often the result of kidney trouble. To keep your kidneys in good health, it is essential that you take a course of treatment with the only kidney medicine that has been scientifically proven to be effective. This is the only kidney medicine that has been tested and found to be safe and effective. It is the only kidney medicine that has been tested and found to be safe and effective. It is the only kidney medicine that has been tested and found to be safe and effective.

## "Socialist Promises False"

# Canada Minister Raps British Labor Govt.

TORONTO, Sept. 17.—(CP)—Reconstruction Minister Howe said yesterday that Britain's Labor government "has thought it necessary to carry out their (Socialist) ideology instead of meeting the problems at hand."

**"ALL THE PROMISES** of the socialists have been proven entirely false," he said in an address at a meeting of the Liberal Business Men's Club of Toronto. Sir Howe returned recently from a visit to Britain and the continent.

"Socialism is not helping Britain," he said. "We in Canada are not shocked at some of the government's socialist moves. After all, we have our own socialist bank, our own socialized electricity and railroads. It's not as much the British government's moves toward socialism that shock us but the fact that the government of the day, facing serious internal problems and with dollar bank rupees staring it in the face, has done all these things the Labor government has thought it necessary to carry out their ideology instead of meeting the problems at hand."

**MR. HOWE SAID** that the experience in the coal-mining industry in Canada under private enterprise and under combined labor-management relations, as compared to those in Britain under socialism, would convince any fair-minded person that the system of private enterprise is more reliable than the system of socialism.

Rapid rise in a few U.S. commodity prices suggests the tail-end of an inflationary spurt rather than the beginning of a new spiral.

**Light, luscious hot buns** if you bake with Fleischmann's. Fleischmann's Active Fresh Yeast gives you full value, because it's full-strength, fast-acting. # Campaign Planned: Free Chest X-Rays Available Here Oct. 1

Edmonton's free chest X-ray service, a joint provincial department of health and Alberta Tuberculosis Association project, will start 1947 operations here on Oct. 1, it was announced at a meeting of citizens in the Masonic Temple Tuesday night.

WITH MORE THAN 100 citizens attending, the meeting was called to organize for the free survey. Mayor Harry Ainlay was chairman. Addressing the gathering, C. R. Dickey, general secretary of the Alberta TB Association, said that X-ray survey will continue until all districts of the city are covered. Two mobile units, owned by the ATA and operated by the department of health, will serve in from 25 to 30 canvassing locations.

House - to - house conversion will begin about nine days prior to the actual X-ray taking. Individual appointments will be announced three days ahead, and the chest X-ray service will start Oct. 1.

Mr. Dickey stated the units will operate in various parts of the city and that no great distance will be encountered by anyone wishing to have an X-ray taken. A speedy operation, the X-ray report is ready only four to five minutes to complete.

IN HIS remarks, Mayor Ainlay termed the meeting probably the "most important in the city at the present time." He voiced hope of "winning Calgary" by having 100 per cent of the population turning out for the X-ray.

"TB comes from TB," said the dreading disease still kills more people than any other, Dr. G. R. H. Davison, physician in charge of TB clinic, told the group.

Termining the meeting, the "opening gun" of a renewed campaign to control the disease, he said the message is becoming understood for more "exciting" things. He stressed it is still a serious problem.

Punting out that the X-ray service is made possible through the sale of Christmas seals, Dr. Davison requested active co-operation and assistance to carry on the fight.

"TB STILL is the chief killer of communicable diseases," Dr. G. Little, medical health officer, Edmonton, said. Mass X-ray tests are the first practical weapon against the disease, he added.

If citizens can be persuaded to have an X-ray every year, so the disease can be found in its early stage and overcome, very few people would have TB, Dr. Little said.

R. W. Hanson, president, Alberta TB Association, reported that the only income for maintaining the X-ray units comes from Christmas seals. He added that 300 people of Alberta who now are living would have died except for the efforts of ATA and the department of health.

Returns through seal sales have jumped from \$2,000 in 1947 to \$42,000 in 1946, Dr. George J. Baker, president of the Klusman Club, which sponsors the sales, stated.

## The Book of Knowledge (Department: The United States)

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.

**Editor's Note:** - September 17 is known as Constitution Day in the United States because it is the anniversary of the adoption of the Constitution by the Philadelphia Convention in 1787.

The Second Continental Congress, which adopted the Declaration of Independence in 1776, was a revolutionary body chosen in defiance of Great Britain. It was composed of delegates appointed by the separate states, but there was no central government and Congress had no power over the separate states.

After the Declaration of Independence, it was determined to frame a written agreement between the states, a sort of constitution. This was known as the Articles of Confederation, was adopted by Congress in 1776, and was sent to the thirteen states for their approval. However, one state, Maryland, refused to ratify it until 1781. Then the Articles of Confederation went into effect, practically at the end of the Revolution.

Under these articles, the states were to be equal. Each state was to have two votes in the Congress, whether large or small, was to have two members in the House of Representatives, the states were to have members according to their population.

There were many other disputed points, but after four months of discussion, the Constitution was adopted on Sept. 17. It was then sent to Congress, which sent it to the states. The convention had decided that the new government would begin when nine states had ratified the Constitution. Any states that refused to join this majority would be left out.

It was not at all certain that a sufficient number of states would accept the instrument, as many prominent men were opposed. However, by July of the following year, eleven states had ratified. Only North Carolina and Rhode Island were left outside. So these two states had not part in the first elections - nor did New York, which did not get ready in time. North Carolina finally ratified on November 21, 1789, but Rhode Island did not ratify until May 1790.

Only North Carolina and Rhode Island were left outside. So these two states had not part in the first elections - nor did New York, which did not get ready in time. North Carolina finally ratified on November 21, 1789, but Rhode Island did not ratify until May 1790.

There were many other disputed points, but after four months of discussion, the Constitution was adopted on Sept. 17. It was then sent to Congress, which sent it to the states. The convention had decided that the new government would begin when nine states had ratified the Constitution. Any states that refused to join this majority would be left out.

It was not at all certain that a sufficient number of states would accept the instrument, as many prominent men were opposed. However, by July of the following year, eleven states had ratified. Only North Carolina and Rhode Island were left outside. So these two states had not part in the first elections - nor did New York, which did not get ready in time. North Carolina finally ratified on November 21, 1789, but Rhode Island did not ratify until May 1790.

## Returning Home

Hon. R. Earl Ansley, minister of education, who is expected to return to his office in the Legislative Buildings this week after a two-week absence attending sessions of Canadian educationists in Quebec. He was accompanied by Dr. W. H. Swift, deputy minister of education, and W. E. Frame, chief superintendent of schools.

## Veteran Employees At Get-Together

A dozen retired members of the staff of Northwestern Utilities Ltd. in Edmonton, who formed the Northwestern Utilities Oldtimers' Association, with invited guests, held a get-together dinner in the Macdonald hotel Tuesday evening.

The meeting was held under the chairmanship of association president Art Holmes. Dave Airth is vice-president with Bill Watkins secretary. The association, formed in December, 1946, holds one banquet and four meetings each year.

A special guest at Tuesday's dinner was Charles Spencer, a member of the association, who journeyed from Wilmer, California, to attend. Mr. Spencer retired from the post of superintendent in 1939 and since has been travelling extensively in the U.S.

Julian Garrett, vice-president and R. C. McChesney, general manager, respectively, for Northwestern Utilities Ltd. were non-member guests-of-honor.

Following the dinner Mr. Spencer showed some colored film of California scenes.

## U.S. Congressmen Pause in City

Silent on the question of Arctic and Alaskan defense and also "mum" on the political outlook in the United States, two members of the US house foreign affairs subcommittee, Republican Congressmen R. B. Chappell, Illinois, and Bartel Jankman, Michigan, stopped overnight in Edmonton Tuesday enroute to an inspection of Alaskan installations and a look at the Alaska Highway.

Congressman Chappell is chairman of the subcommittee of the house.

J. C. Schellberg, second secretary at the United States Embassy, Ottawa, and Boyd Crawford, committee clerk, are accompanying the senators.

Col. C. H. Deere, member of the joint Canadian-American defence board, heads the service personnel aboard the Army C-54 which they will travel, some distance over the Alaska Highway and in a stop-over at Whitehorse would talk with Canadian Army officers in charge of the road.

It is also intended to travel over the Hayes cutoff connecting the Alaska Highway with the west coast near Skagway.

Anchorage and Fairbanks, where there are large US military installations, were on the itinerary.

It is expected the congressmen will report to the house foreign affairs committee.

## U.S. Agents Break Black Market Ring

BERLIN, Sept. 17. (Reuters)—An international black market in which Bulgarian business men are alleged to have sold 2,000,000 Bulgarian cigarettes illegally in Germany, many at swollen prices, and to have taken back into Hungary automobiles and machinery brought with the proceeds, was brought to light yesterday, Ray Carleton, chief of United States Army investigation agencies in Germany, said, four Bulgarian agents were under arrest and would be charged with "at least black market activities" and with being receivers of stolen goods. He said they were Theodor Stanes, T. V. Michailoff, Gen. I. Kassaroff and Panajot Saratcheff.

A committee on their return to Washington, around Sept. 22, The congressmen boarded the train plane at Chicago and arrived in Edmonton early Tuesday afternoon.

The plane left Wednesday morning for the north.

They will travel, some distance over the Alaska Highway and in a stop-over at Whitehorse would talk with Canadian Army officers in charge of the road.

It is also intended to travel over the Hayes cutoff connecting the Alaska Highway with the west coast near Skagway.

Anchorage and Fairbanks, where there are large US military installations, were on the itinerary.

It is expected the congressmen will report to the house foreign affairs committee.

## Not Editorial Suppression Censorship Said Main Threat to Free Press

LONDON, Sept. 17. (AP)—The Institute of Journalists, a British professional organization of 2,900 working newspaper men and women, has told the government that official censorship and not editorial suppression of news is the great danger threatening Britain's traditionally free press.

The INSTITUTE referred to the increasing government use of public relations officers as a threat toward "monopolistic control of official news."

Press officers "play up" the successes of the department they serve and suppress news of the failures, the institute declared in testimony to the government-appointed royal commission now investigating Britain's press.

Memoranda of the evidence were published yesterday. The institute cited reports of a picture of suppression until it is allowed sufficient newprint to give something like a comprehensive picture of events.

## U.S. Justice Asks Warfare "Revision"

COLUMBUS, Ohio, Sept. 17. (AP)—Justice Robert H. Jackson of the United States Supreme Court last night countered a Russian demand for a ban on use of the atomic bomb with a demand for complete revision of the rules of war.

Especially needed, he said, are rules on the use of air power and treatment of prisoners. At the same time Jackson said the United States had a great opportunity to contribute to a century of peace by building an air force so strong that no one would doubt its ability to defeat any attacker.

Chief United States prosecutor at the German war crime trials in Nuremberg, he expressed that "despite outward appearances, at all hands, to avoid actual war with the Soviet leader want, at the United States at least in the near future."

Especially needed, he said, are rules on the use of air power and treatment of prisoners. At the same time Jackson said the United States had a great opportunity to contribute to a century of peace by building an air force so strong that no one would doubt its ability to defeat any attacker.

# Art Not Luxury Says Dr. Evans

Art is not a luxury but a necessity to the full life of ordinary men and women, Dr. J. B. Evans said at a luncheon meeting of the Western Canadian Club held in the main dining room of the Hotel Vancouver.

Dr. Evans is vice-chairman of the Arts Council of Great Britain and is a member of the Canadian Arts Council and the United Kingdom Information Council.

Dr. Evans, on the course of his cross-country tour, found an increasing regard for the fine arts and an enthusiastic development of music and drama in the West.

## Signing the Register

Mr. and Mrs. John Arthur Webb who were married recently at the Know United Church are pictured signing the register after their marriage. The bride is the former Miss Marion Florence Dungan, daughter of Mr. Stanley A. Dungan and the bridegroom is the son of Mrs. William J. Webb and the late Mr. Webb of Calgary.

## Fashions Featured at Show Reminiscent of Gay Nineties

Reminiscence of the gay nineties were the fashions modeled at the autumn show sponsored by the Junior Miss of the Edmonton Chapter of the Y.W.C.A. at the Trovador Ballroom Wednesday afternoon.

For the junior miss the "rainbow" look is outmoded and in its place has come the new silhouette in dress and classroom classic. Appealing to the teenager was a two-tone wool dress, featuring a dress Stewart skirt and tunic styled bodice of black jersey highlighted with three bold metallic buttons.

Separates are key to the mix and match mood. Sweaters and novelty plaids are extremely important in separate attire and were also popular with cashmere and shawl sweaters. Fur-trimmed coats, featuring the new very full swing back, long lengths, softly rounded shoulders and padded hips, attracted much attention. Shawl collars of rich fur highlighted many of the wool coats.

Winning much admiration was the Renaissance brown wool coat, the classic cuffs and shawl collar, fashioned from luxurious mink. Another eye-catching feature was a rich red line featured a matching hood partly trimmed with black Persian lamb.

Fur-trimmed suits are popular this autumn, lamb and mink being the favorite trim. Winning approval was a plum-colored suit, the longer jacket featuring bold Persian lamb trim with a unique series of pockets extending from the waist to the hips.

Harris tweens were popular suit materials, as were fine wool gabardines and many novelty plaids. Appealing to the college miss was a three-piece ensemble tailored from a riotous hued wool, the swing back great coat fastened with bold silver buttons.

Long-sleeved sweaters, tightly banded at the wrist, full three-and-four flare skirts along with the new longer lengths were favored in the display of furs. The fur-trimmed suits, featuring the new very full swing back, long lengths, softly rounded shoulders and padded hips, attracted much attention.

**DICK TRACY**

THERE'S THE TIRE THERE'S THE DAMPER

**MOON MULLINS**

THEY BEAT IT INTO THE NEXT BLOCK THERE ARE LOTS OF HEDGES AND SUBURBANE TO DO IN THIS LET'S GO

**SUPERMAN**

THEY'RE RIGHT BEHIND ME! WHAT CAN I DO?

**STEVE CANYON**

SEEING A DOG KIDNAP WITH THE PEN GATE OPEN ALTHOUGH HE'S BEING REDUCE IN THE DOGHOUSE

**DICK TRACY**

WELL, HERE'S THE TIRE THERE'S THE DAMPER
